

CONTENTS

Contributors

Preface

ix

1 Psychological Motivation and Underlying Concepts

2 Image Data Structures

Steven L. Tanimoto

3 Region Analysis Using a Pyramid Data Structure

Martin D. Levine

4 Processing Cones: A Computational Structure for Image Analysis

Allen R. Hanson and Edward M. Riseman

5 Visual and Conceptual Focus of Attention

Ruzena Bajcsy and David A. Rosenthal

6 Searching Images for Structure

Allen Klinger

7 System Architecture for Image Analysis

Bjorn Kruse

8 Comments of the Discussants

The Split-and-Merge Algorithm for Region Analysis

Steven L. Horowitz

On Pyramid Data Structures and Color Features

Yoshiaki Shirai
