Chapter

1. DEFORMATION OF SOLIDS

Pages

1-81

1.1.	Introduction	1
1.2.	Concepts of Stress and Strain	1
1.3.	Normal and Shear Stresses	2
1.4.	Simple and Compound Stresses	5
1.5.	Explanation of Principal Stresses and Principal Planes	6
1.6.	Normal, Shear and Volumetric Strains	6
1.7.	Constitutive Relationship between Stress and Strain	7
1.8.	Elasticity and Elastic Moduli	10
1.9.	Poisson's Ratio	24
1.10.	Concept of Free Body	38
1.11.	External and Internal Equilibrium	39
1.12.	Concepts of Strength, Stability and Stiffness	40
1.13.	Additional Concepts for Compound Stress, Principal Stress and Principal Planes	40
	<i>Highlights</i>	73
	<i>Exercise</i>	76

2. BENDING OF BEAMS

82-141

2.1.	Concept of Shear Force and Bending Moment	82
2.2.	Beams and Support Forces	82
2.3.	Types of Loads	85
2.4.	Shear Force and Bending Moment Diagrams for a Cantilever	85
2.5.	Shear Force and Bending Moment Diagrams for Simply Supported Beams	116
2.6.	Shear Force and Bending Moment Diagrams for Over-Hanging Beams	119
2.7.	S.F. and B.M. Diagrams for Beams Carrying Inclined Loads	129
2.8.	Shear Force and Bending Moment Diagrams for Beams Subjected to Couples	134
2.9.	Relations between Load, Shear Force and Bending Moment	137
	<i>Highlights</i>	138
	<i>Exercise</i>	139

3. STRENGTH OF BEAMS AND COLUMNS

142-245

3.1.	Introduction	142
3.2.	Theory of Simple Bending	142
3.3.	Stress and Strain Variation along the Depth of Beams	144
3.4.	Struts and Columns	178
3.5.	Stability and Buckling	180
3.6.	Euler's Buckling Load for Columns	181
3.7.	Concept of Strain Energy	220
	<i>Highlights</i>	234
	<i>Exercise</i>	237

Chapter	Pages
4. SHAFTS AND SPRINGS	246—312
4.1. Torsion	... 246
4.2. Derivation of Shear Stress Produced in a Circular Shaft subjected to Torsion	... 246
4.3. Maximum Torque Transmitted by a Circular by a Solid Shaft	... 248
4.4. Torque Transmitted by a Hollow Circular Shafts	... 250
4.5. Power Transmitted by Shafts	... 251
4.6. Leaf (or Laminated)	... 293
4.7. Helical Springs	... 296
<i>Highlights</i>	... 306
<i>Exercise</i>	... 309
5. PLANE TRUSSES	313—359
5.1. Plane Trusses and Frames	... 313
5.2. Types of Trusses (or Frames)	... 313
5.3. Analysis of Forces in a Truss (or Frame) Member	... 315
5.4. Method of Joints	... 315
5.5. Method of Sections	... 337
5.6. Graphical Method	... 346
<i>Highlights</i>	... 352
<i>Exercise</i>	... 353
