

Contents :

Preface

Section I – Instruments and Accessories

1. **Analog Meters**
2. **Digital Meters**
3. **Analog and Digital Oscilloscopes**
4. **Probes**
5. **Bridge Instruments**
6. **Recorders and Data Loggers**
7. **Signal Generators**
8. **Signal Analyzers**
9. **Electronic Counters**

Section II – Instrument Design and Manufacturing Techniques

10. **Grounding and Shielding**
11. **Elements of Design**
12. **Metrology**
13. **Standards in Quality Management**

Section III – Instrumentation Technology

14. **Industrial Communication Techniques**
15. **Instrumentation in Hazardous Areas**

Appendices

- A. Attenuators
- B. Terminology Used in Hazardous Area Applications
- C. Instrumentation Symbols and P&I Diagrams
- D. Typical Technical Specifications of Instruments
- E. Multiple Choice Questions

End Matter

- Answers to Multiple Choice Questions
- Bibliography
- Answers to Numerical Problems
- Index
