

Table des matières
Hyperbolic Boundary Value Problems
Auteur : Reiko Sakamoto
Traduction : Katsumi Miyahara
Alphabet du titre : Latin

1. Introduction
2. Linear Hyperbolic Equations
3. Initial Value Problems
4. Boundary Value Problems
5. Well-posedness and Energy Estimates
6. Symmetric Hyperbolic Systems
7. Strictly Hyperbolic Operators
8. Weak Solutions and Distribution Theory
9. Characteristic Boundaries
10. Nonlinear Hyperbolic Equations
11. Applications to Physical Models
12. Appendices
13. References
14. Index
