

Sommaire :

- 1. The manufacture of sulphuric acid**
- 2. Ammonia synthesis**
- 3. The manufacture of nitric acid**
- 4. The manufacture of inorganic salts and fertilizers**
- 5. Silicate technology**
- 6. Metallurgy**
- 7. Electrochemical manufacturing processes**
- 8. The chemical technology of fuel**
- 9. Industrial organic synthesis**
- 10. High-molecular compounds**
- 11. Industrial-wastes purification**
